Introduction

SET Awards
20 May 2025
SLS Expo, RFECC
Riyadh

From the curators of **TPIMEA**, **TPI** and **MONDO-DR** Magazines, we are delighted to present our latest event for the entertainment technology industry:

The Saudi Entertainment Technology Awards.

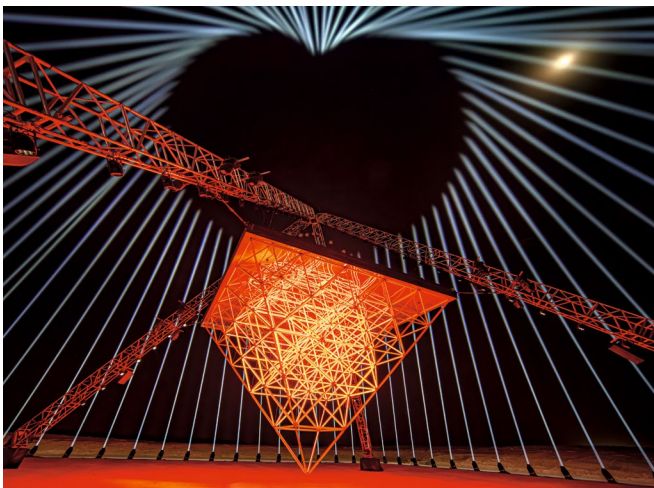

The SET Awards aims to celebrate and promote projects with the best use of technology across live events and entertainment installations within the Kingdom of Saudi Arabia.

As part of the **Saudi Vision 2030**, under the patronage of His Royal Highness, Prince Mohammed Bin Salman Bin Abdulaziz Al Saud, Saudi Arabia is undergoing one of the most ambitious, far-reaching and radical periods of economic, societal and cultural development ever witnessed. This transformation has already seen rapid development of the country's tourism and hospitality sectors, underpinned by groundbreaking use of entertainment technology at every step.

With Saudi Arabia established as a global leader in the technologically advanced venues and live events industries, we believe the time is right for the Kingdom to have its own awards that celebrate the venues, agencies, and integrators that make these projects possible.

The SET Awards have 16 categories, including: Large Scale Festival, Sporting Event, Celebration Ceremony, Theme Park, Hotel, and Immersive Experience. Two categories are reserved to support sustainability initiatives within Saudi Arabia, while the Rising Star category is designed to promote Saudi Nationals who have immersed themselves in the entertainment industry, nominated by their peers based on their skill and work ethic.
